***660LB HIGH CAPACITY
DIGITAL BALANCE BEAM SCALE***

***Market's Highest Capacity,
660 pounds***

WB-3000

DIGITAL BALANCE BEAM SCALE

WB-3000plus

HIGH CAPACITY DIGITAL BALANCE BEAM SCALE

Tanita's WB-3000 & WB-3000plus digital beam scales are ideally suited for many professional markets (including weight loss, medical, and fitness), with an industry leading capacity up to 660 lb (300 kg). They are the perfect replacement for the old mechanical balance beam scale, providing improved accuracy and efficiency. These scales feature both an RS-232 and USB output to transmit patient data to an external device. The incredibly durable, yet portable units are equipped with casters for easy mobility. The WB-3000 and WB-3000plus also feature a mechanical height rod, allowing patients height to be taken the same time as weight, along with an automatic body mass index (BMI) calculation.

Specifications:

- ✓ **Capacity:**
WB-3000: 440 lb (200 kg)
WB-3000plus: 660 lb (300 kg)
- ✓ **Weight Increments:** 0.2 lb (0.1 kg)
